

JDE1000H Ethics in Research

Completion of the non-credit course JDE1000H Ethics in Research (0.0 FCE) offered by the Faculty of Applied Science and Engineering is a requirement for both the MAsc and PhD programs.

- The seminar is offered in both the Fall and Winter terms (you only need to complete it once)
- The seminar information (dates/time, signup, instructions) will be sent to you via email, once details are available from the Office of the Dean, Faculty of Applied Science and Engineering
- Students are expected to complete the seminar in their first year of study
- Please add this course as soon as possible on ACORN. We recommend adding the Fall section (JDE1000H1F) by the course enrolment deadline, but if you cannot attend the Fall session you should then add the Winter section (JDE1000H1S) on ACORN
- The credit “CR” notation will be added at the end of the academic year (normally in the summer term)
